

ROOMIES INC. REQUEST FOR QUOTATION (RFQ) REFERENCE NUMBER: 12005378

March 27, 2025

1. INTRODUCTION

1.1. Statement of Objective

The objective of this Request for Quote (RFQ) is to enable Roomies Inc. to enter into a contract with a vendor to provide AI-driven roommate matching services via the Roomies application. The expectation is for an intelligent, automated system leveraging OpenAI's API to match users based on compatibility factors, preferences, and behavioral data. This service will streamline the roommate selection process and enhance user satisfaction.

The successful provider, if any, will enter into a contract with Roomies Inc. that provides for the performance of all mandatory conditions and requirements in this RFQ and proposed conditions and requirements that Roomies Inc. prefers in this RFQ or that Roomies Inc. determines are in its best interest.

2. GENERAL CONDITIONS

2.1. Authorized Representative

Mr. Ben Grimm

Roomies Inc.

Office of Operational Effectiveness & Procurement Services

Baxter Building

Baltimore, MD 21201

2.2. Approximate Calendar Events

04/15/2025 Deadline for submitting questions and/or inquiries (email only) to purchasing@roomies.com
04/30/2025 Deadline for written quotes @ 2 PM ET

3. SPECIAL CONDITIONS

3.1. Statement of Work

I. Scope of Work: Roomies Inc. requires an AI-powered roommate matching system that will:

- Utilize OpenAI's API to analyze user input and provide optimal matches.
- Feature an interactive web and mobile-friendly interface for user access.
- Offer a reporting and analytics dashboard for administrators to monitor the matching process.

II. Location of Work: All work can be performed remotely. No physical office space or support will be provided.

III. Period of Performance: Quotes are due on 04/30/2025. Once a vendor is selected, the implementation schedule will be determined to ensure a smooth launch before the next quarter.

IV. Deliverables Schedule:

- Initial prototype delivery by 07/01/2025
- Full system deployment by 08/15/2025
- Ongoing support and system updates for one year post-launch.

V. Applicable Standards:

- The platform must be secure and comply with data privacy standards.
- AI-driven recommendations must have an accuracy rate of at least 90% based on user satisfaction surveys.
- Matching algorithms must be fair, unbiased, and transparent in decision-making.

VI. Acceptable Criteria:

- System must be user-friendly, accessible via web and mobile, and support high traffic loads.
- User satisfaction with matches must meet or exceed 85% approval rates.
- Vendor must provide ongoing maintenance and support throughout the contract period.

VII. Special Requirements:

- Integration with Roomies Inc.'s database and user management system.
- AI recommendations should be explainable and adaptable to user feedback.

3.2. Qualification of Bidders

This contract shall be awarded only to a responsive and responsible proposer, qualified to provide the service specified. The successful proposer shall, upon request, furnish Roomies Inc. sufficient evidence in order to confirm a satisfactory performance record, including but not limited to:

- A record of prior experience in AI-driven applications.
- A satisfactory reputation for integrity, business ethics, and data privacy.
- Demonstrated financial stability and capability to execute the project.

3.3. Award

Roomies Inc. will review and rank every proposal received in response to this RFQ. The most competitive bid that offers the highest level of proven service, reliability, and user experience will be chosen. Roomies Inc. reserves the right to negotiate with the top-ranked proposer(s).

3.4. Post Award Meeting

Within five (5) working days after receipt of notification of award of the contract, the successful proposer shall meet with the designated Roomies Inc. representative(s) to discuss job procedures, system integration, and scheduling.

3.5. Content Ownership

All software, data models, and AI-generated insights created as part of this project shall be the property of Roomies Inc., except for proprietary components of OpenAI's API or other pre-existing intellectual property of the vendor.

3.6. Assumptions and Constraints

- System must be scalable for a user base of up to 100,000 users.
- Roomies Inc. reserves the right to modify, enhance, or discontinue the system based on performance evaluations.
- The total budget for this project shall not exceed \$50,000.

3.7. Invoices

- All prices must appear in USD.
- This is a one-time purchase with annual support and maintenance included. Payment terms are NET 60.
- Vendor paperwork must be submitted for timely payment processing.

VENDOR INFORMATION

Are you a current Roomies Inc. Approved Vendor? Yes / No

References: Please list three current clients with similar projects that we have permission to contact.

SERVICE CONTRACT

Item Description	Number of Users	Price
AI-driven Roommate Matching System	Up to 100,000 users	\$XXX
