Simplicity in order to maintain the attention of our users, most of whom are young and appreciate straight the point style. This page filters through the different walks of life a user may be from in order to match them with someone in the swme position.

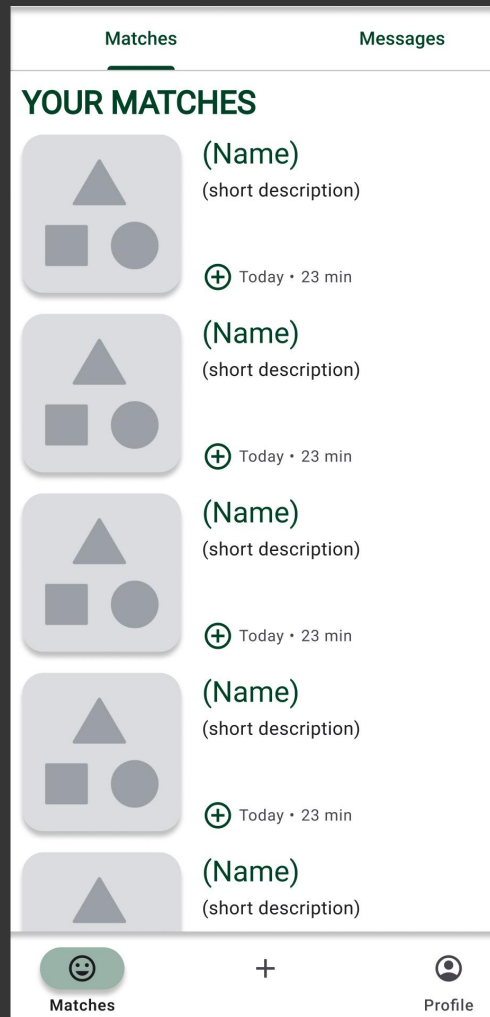

Interactive (cont.)

The filters section is where Roomies users can boil down their preferences in order to find their perfect match—someone who shares common interests and will make coexisting easier.

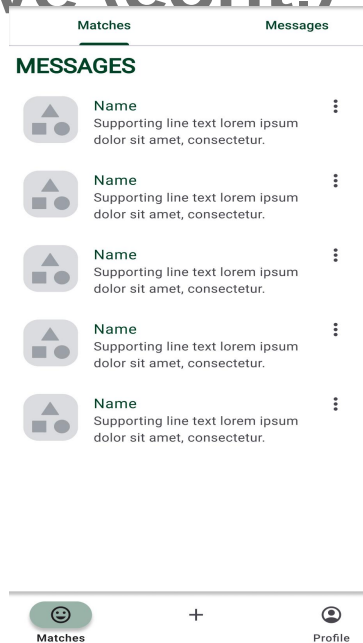

Interactive (cont.)

Meet your matches! Cultivated on similar interests and of course similar walks of life.

Interactive (cont.)

Message your matches to see if the communication between the two of you matches your similar interests. If you hit it off then you're in for a new living mate!

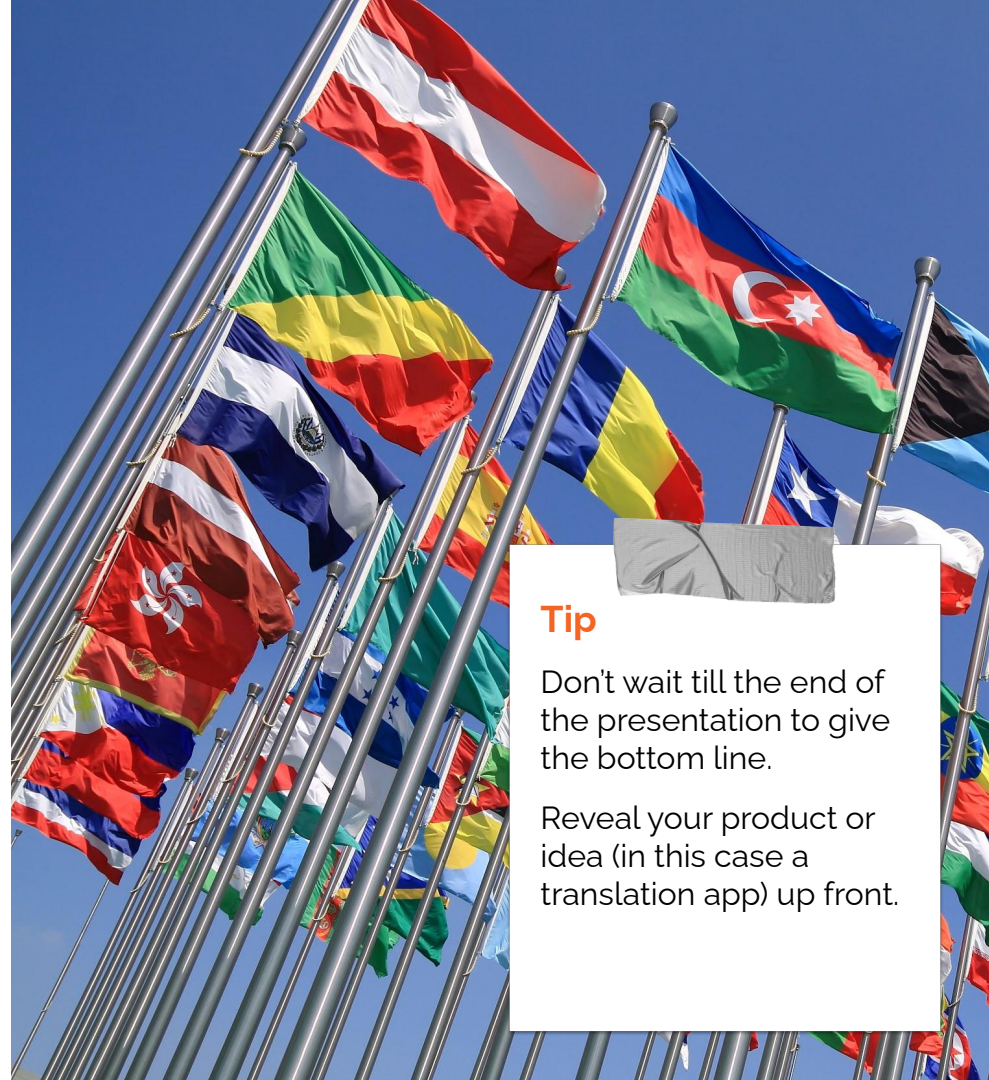

Typography.

In this application, we use the Arial font for its clean, straightforward design that emphasizes simplicity and clarity. Arial's legibility across various screen sizes and devices ensures a user-friendly experience without distractions. By opting for a minimalist approach with a font that is universally recognized, we focus on delivering information efficiently. The philosophy of "less is more" is central to our design, where every element serves a clear purpose, and visual clutter is minimized. Arial helps create a polished, modern aesthetic that prioritizes functionality while maintaining an effortless elegance.

Languages

The roomies app aims to assist roommates of plenty cultures. The use of

A.I. helps our app accommodate over 20 languages.

Tip

Don't wait till the end of the presentation to give the bottom line.

Reveal your product or idea (in this case a translation app) up front.
